NEED HELP ON DECIDING WHAT TO ORDER?

Our serving sizes are based on the average person's appetite. When ordering for lunch or smaller appetites, consider ordering a combination of 3-4 items. One salad, one appetizer, and one or two entrees gives you a well-rounded meal that will fill your guests up as well. For Dinner and when you know your guests have bigger appetites, you may want to consider going with 5 items or more. For example: one salad, two appetizers, three entrees, and one dessert gives your guests a good assortment and they will definitely be going home with full bellies and happy faces! Another helpful tip, when you are choosing more than one entree, you may want to go with a Vegetarian (V) or Gluten-Free (GF) option as well as an entree with meat or seafood. Still have questions? Call us at (919) 832-6082, we are always happy to help!
